Introduction

Thank you for using TuneCable iTadal Music Downloader Mac version.

[TuneCable iTadal Converter Mac version](#) is a specialist in removing the encoded restraints on Tidal Music tracks, which liberates Tidal users from only being authorized to play songs with the Tidal Music app or web player. With this skillful tool, you can own perpetual admission to your Tidal collections anytime and anywhere.

Moreover, TuneCable iTadal Music Downloader Mac version enables users to convert Tidal tracks to MP3, AAC, FLAC, WAV, AIFF and ALAC formats with almost all ID3 tags kept after conversion. It also provides other useful functions like playback, tag editing and format converter.

Key Features

- Download Tidal songs, albums, playlists and podcasts.
- Download Tidal tracks in MP3, AAC, FLAC, WAV, AIFF, ALAC formats.
- Preserve the original audio quality and full ID3 Tags.
- Permanently save Tidal music for offline listening.
- More tools: Format Converter, Edit Tag.

System Requirements

- MacOS 10.15 - 12.
- 1G Hz processor, or above.
- 256MB or higher RAM.
- The latest Tidal is recommended.

1. Why should I buy the Mac version of TuneCable iTadal Converter?

TuneCable iTadal Converter Mac version is a shareware. Its trial version only allows you to convert the first 3 minutes of each song. After purchasing the program, you will be provided with a license to unlock this limitation.

2. What benefits do I have after registration?

- You can convert Tidal songs without time limitations.
- You can enjoy lifetime FREE upgrades of the latest versions of TuneCable.
- You can enjoy FREE technical support.

Register TuneCable iTadal Converter for Mac

Step 1. Run TuneCable iTadal Converter for Mac. You can directly click the  "Registration Key" icon or click the top-right "Menu" button and choose "Register" in the drop-down list, and you will get the registration window.

Step 2. Copy and paste the registration Email and Code into the registration popup dialogue, and click Register.

Note: The registration info is case sensitive. Please do not add a blank at the beginning or the end of the word. Make sure both the Email address and key code are the same as what we provided in the confirmation email after purchasing the program. If not, an error message will pop up as below:

Registration ✕

Please enter your new license, [or buy a new one.](#)

E-Mail:

Code:

The registration information must be entered exactly as they appear in your confirmation email. Using the copy and paste method to enter the license is recommended.

Tools

The "**Tools**" section of TuneCable iTadal Music Downloader has 2 value-added features for a better user experience, which are "Format Converter" and "Edit Tag".

Help

TuneCable iTadal Converter's "Help" interface includes almost all common questions and you can find answers for common issues. This could help you save time to fix the problem.

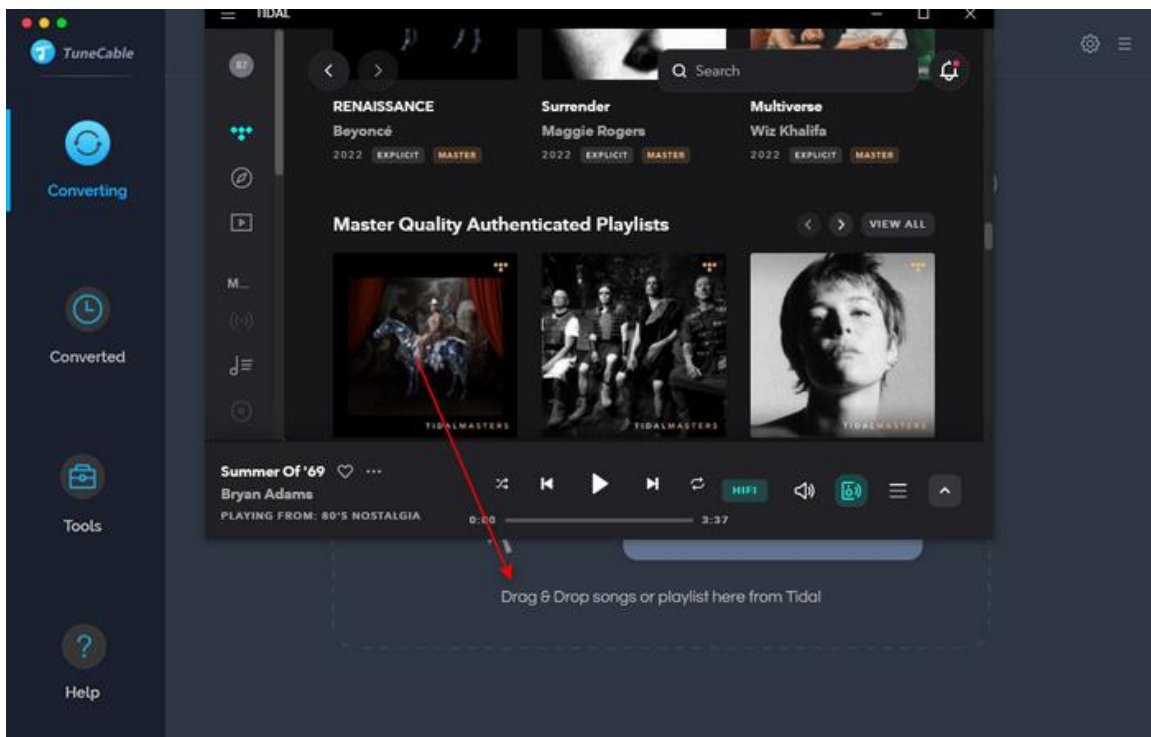

Tutorials

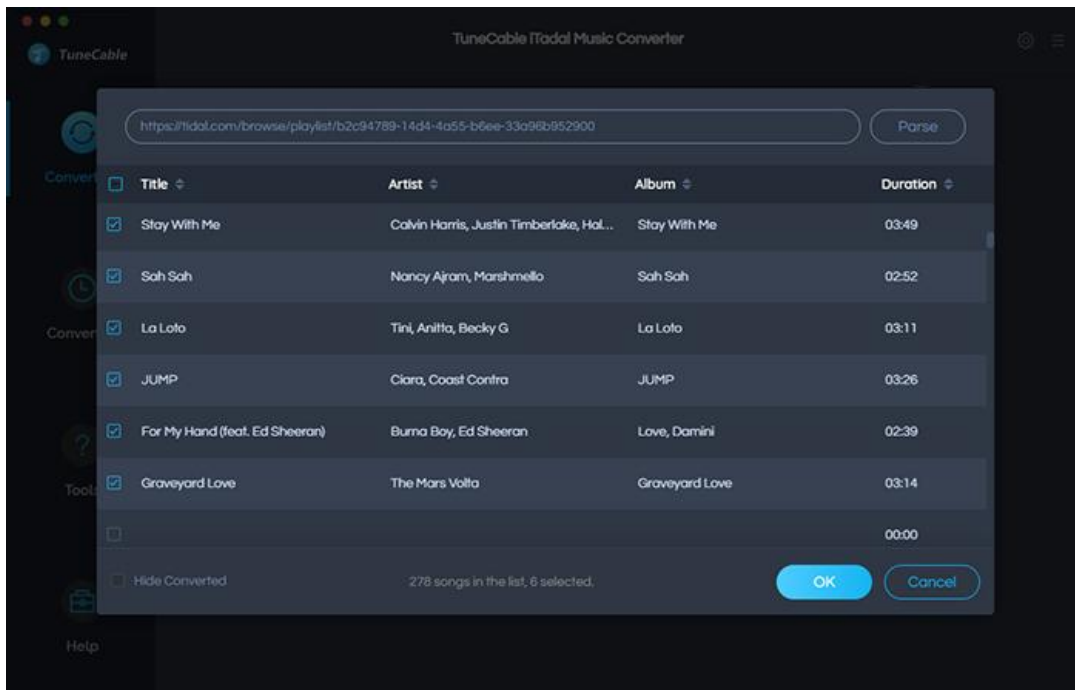

- Import Tidal Music
- Customize Output Settings
- Convert Tidal Music
- View Conversion History
- Export to iTunes
- Format Converter
- Edit Tag

Import Tidal Music

Step 1. Please **drag and drop** the track from Tidal to the specific detect area in TuneCable directly. Or you can copy the link (right-click the song, and then choose "Share" >> "Copy Track Link" or right-click the title of an album/playlist, then choose "Copy link address"), then go back to TuneCable and paste the link into the input box.

Step 2. After adding tracks, you can uncheck the songs that you don't want before clicking "OK".

Customize Output Settings

Click on  icon in the menu bar, and then there will be a pop-up window that allows you to set the output parameters. TuneCable provides 6 download formats, you can convert songs to MP3, AAC, FLAC, WAV, AIFF and ALAC formats. Other settings parameters like conversion mode, output quality, saving path, naming format are ready for you to customize. Then you just need to close the window directly to apply the settings.

Convert Settings:

Conversion Mode: Intelligent Mode, Tidal Record, YouTube Download

Output Format: MP3, AAC, FLAC, WAV, AIFF, ALAC

Output Quality: 128kbps, 192kbps, 256kbps, 320kbps

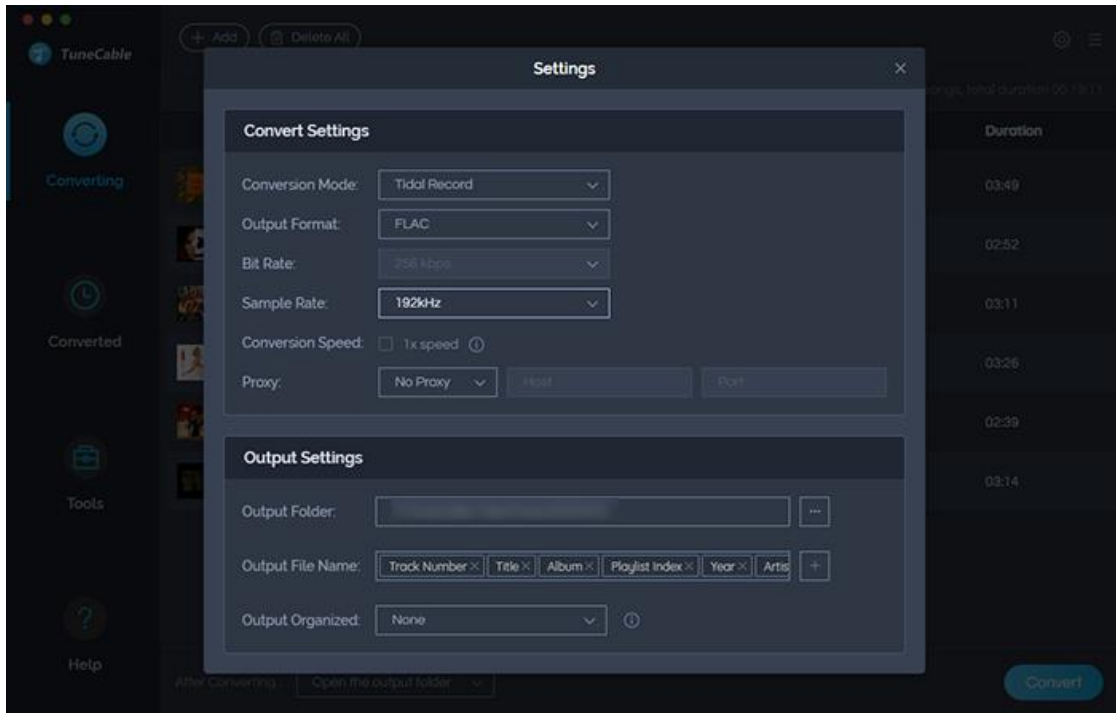

Sample Rate: 44.1 kHz, 48 kHz, 96 kHz, 192 kHz

Output Settings:

Output Folder: You can choose to change it or not

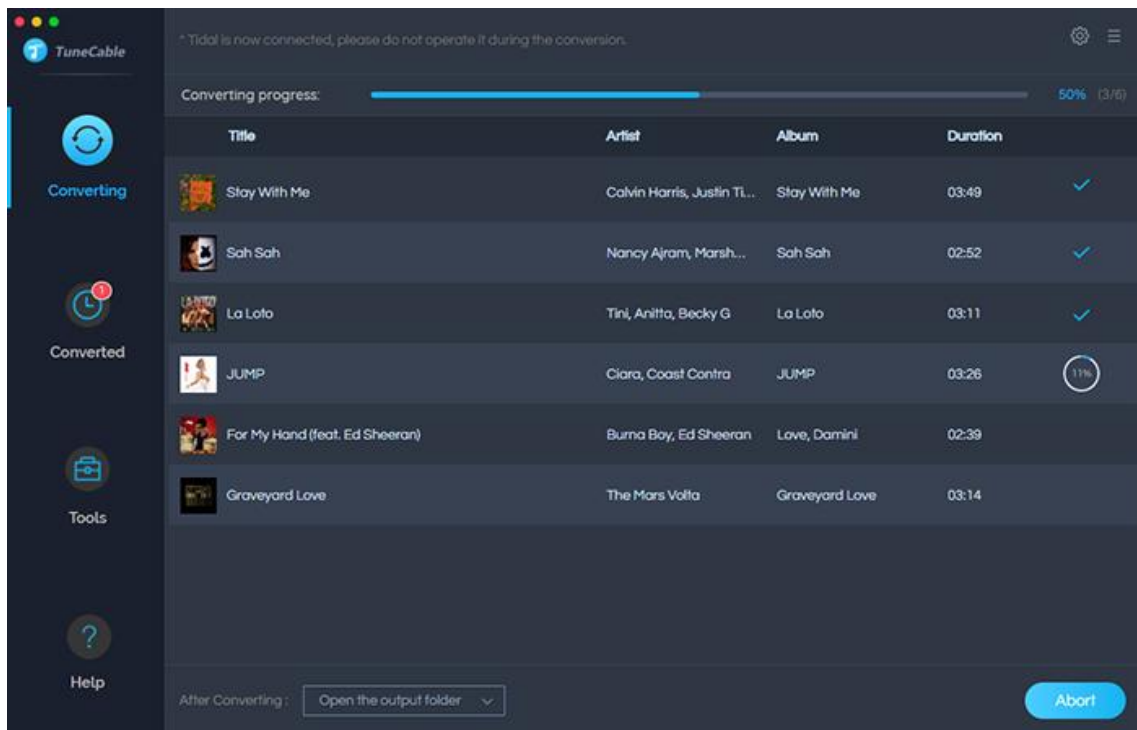

Output File Name: {Track Number}, {Title}, {Artist}, {Album}, {Year}, {Playlist Index}

Output Organized: None, Artist, Album, Artist/Album, Album/Artist

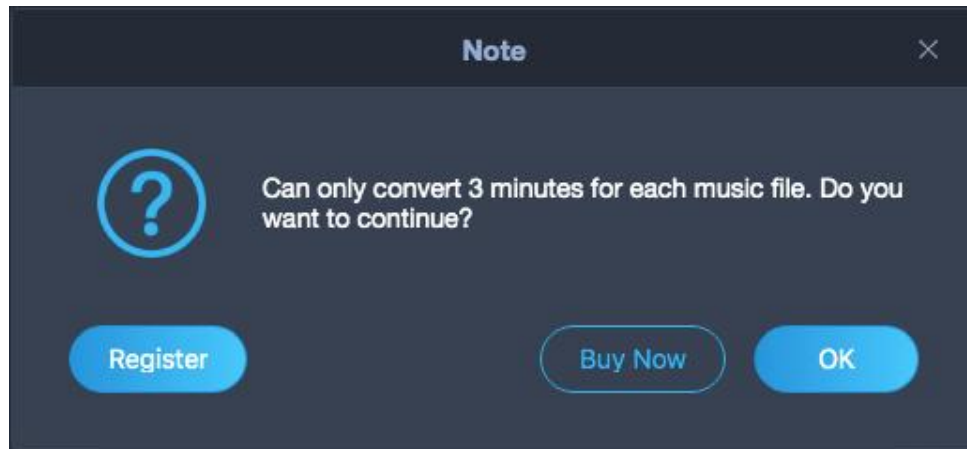

Convert Tidal Music

Click the "Convert" button to start conversion.

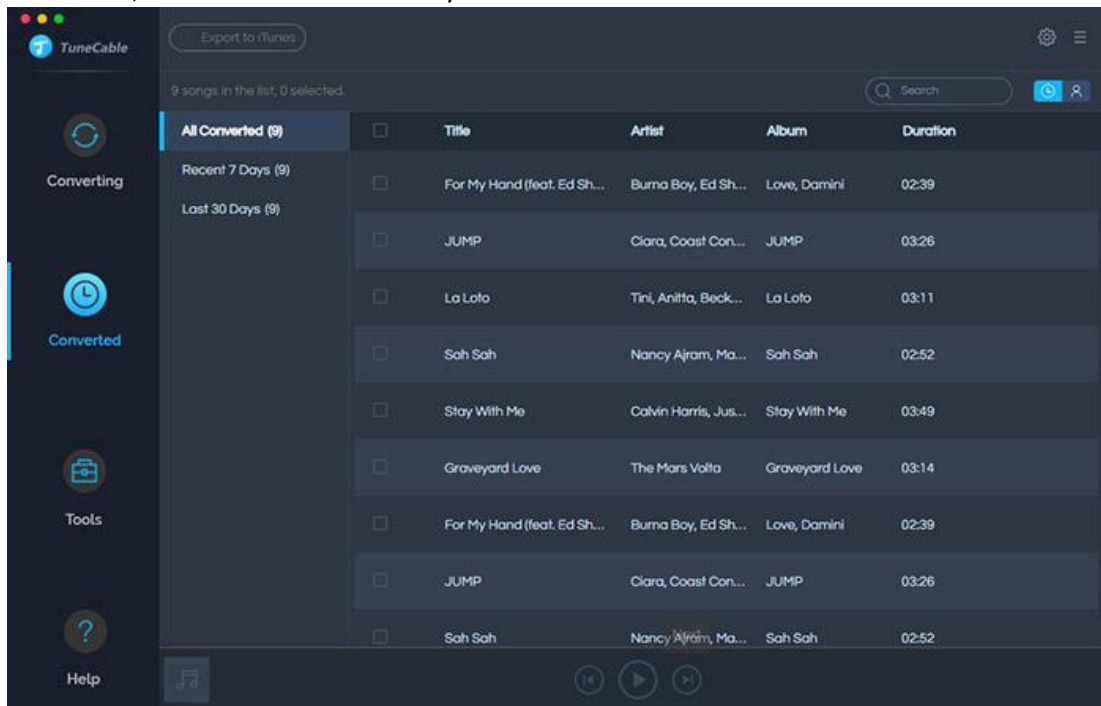

If you haven't purchased the program and are using this product for the first time. When you click the "Convert" button, you will see a prompt message as follows:

View Conversion History

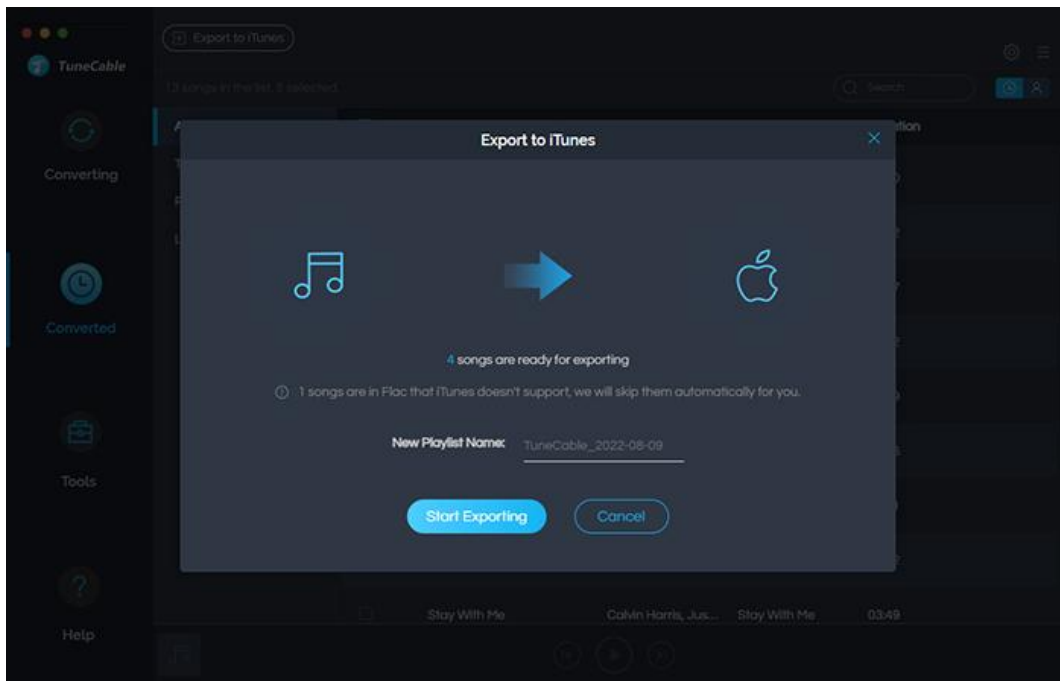

After conversion, click "Converted" to find your converted Tidal Music tracks.

Note: If you need to share or transfer the converted Tidal music, you could click the buttons on the top of the Converted interface. TuneCable provides an option for you, which is "Export to iTunes". TuneCable also offers a music playback function.

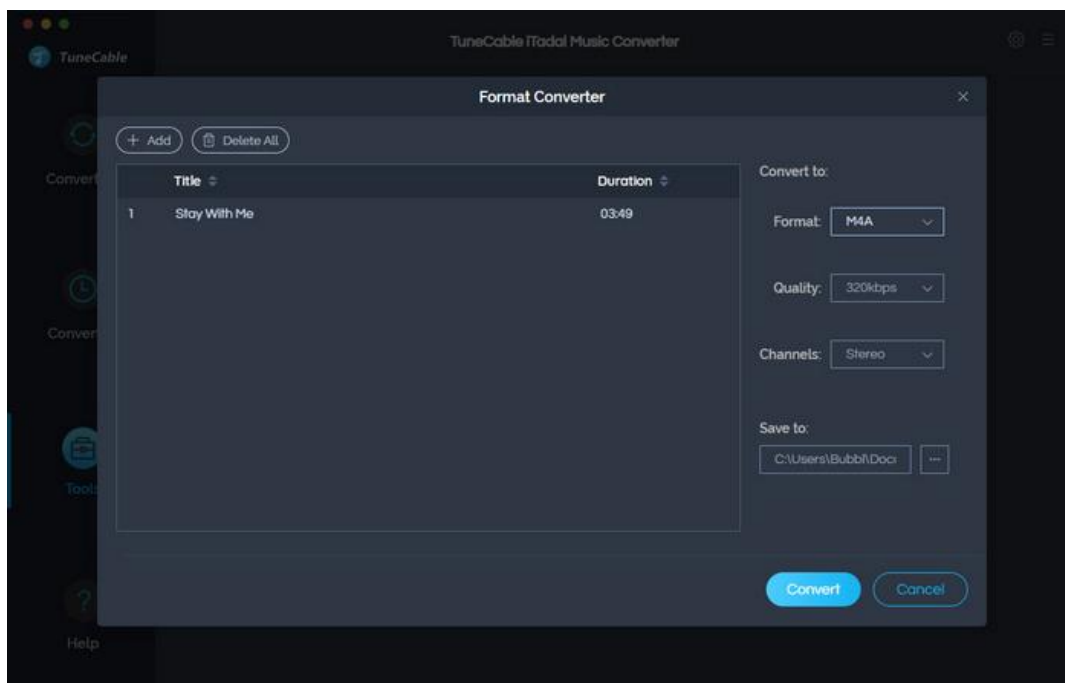

Export to iTunes

TuneCable supports exporting the downloaded Tidal songs to iTunes Library directly.

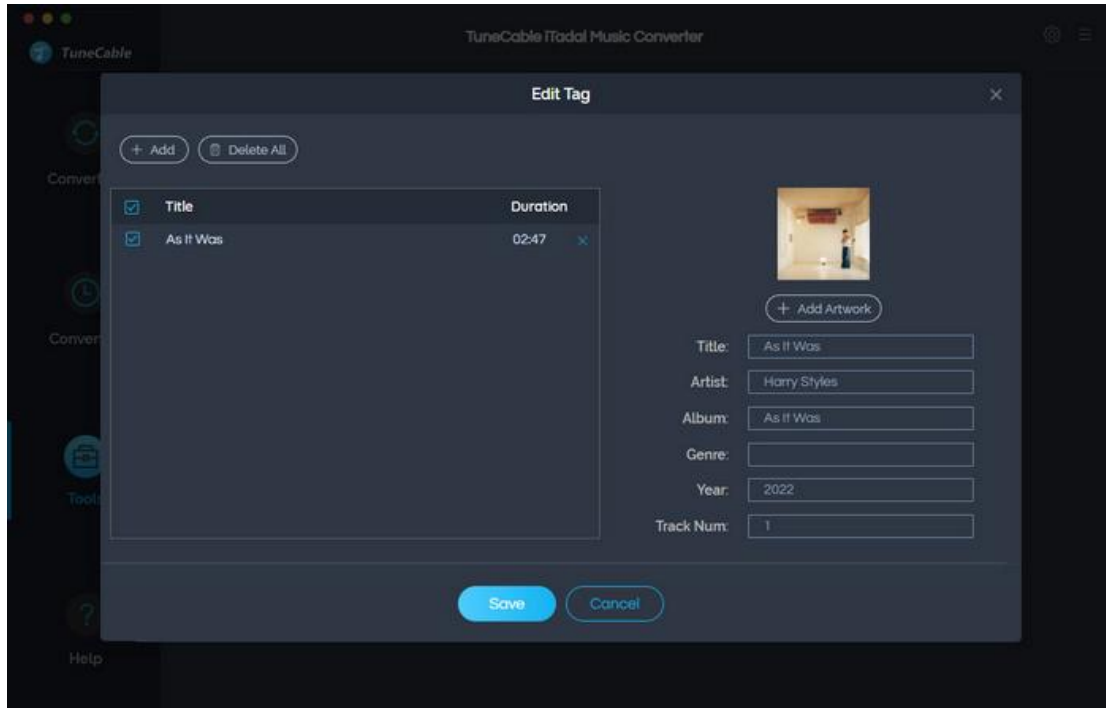

Format Converter

This function allows you to convert music file to 6 different formats with converted music or music in local files. You can convert them to MP3, M4A, FLAC, WAV, AIFF and OGG.

Edit Tag

This function allows you to edit ID3 tag of any song. You can change the information of "Title", "Artist", "Album", "Genre", "Year" and "Track Num". If you want to change the Artwork, that's also supported.
