## Overview

- [Introduction](#)
- [Key Features](#)
- [System Requirements](#)

### Introduction

Thank you for using TuneCable iTadal Music Downloader Windows version.

[TuneCable iTadal Converter Windows version](#) is applied in downloading songs, albums, and playlists from Tidal to a computer locally with a Tidal Free, Tidal HiFi, or Tidal HiFi Plus account. TuneCable decrypts every Tidal track to unlock the full user experience. It converts Tidal Music tracks to common MP3, AAC, FLAC, WAV, AIFF, ALAC formats without losing any audio quality. With TuneCable, Tidal users avail themselves of access to all favorite music collections anytime and anywhere.

### Key Features

- Download Tidal songs, albums, playlists and podcasts.
- Download Tidal tracks in MP3, AAC, FLAC, WAV, AIFF, ALAC formats.
- Preserve the original audio quality and full ID3 Tags.
- Permanently save Tidal music for offline listening.
- More tools: Format Converter, Edit Tag.

### System Requirements

- Operating System: Windows 7, 8, 10, 11 (32-bit & 64-bit).
- RAM: 512M or higher RAM.
- Processor: 1G Hz Intel processor or above CPU.
- Monitor: 1024\*768 resolution display or higher Monitor.

### Purchase TuneCable iTadal Converter for Win

#### Quick Link:

To learn more and download the latest version of TuneCable iTadal Converter for Windows, please visit its homepage:

- ❖ <https://www.tunecable.com/itadal-music-converter/>

To buy a license key for TuneCable iTadal Converter for Windows, please visit its online store:

- ❖ <https://www.tunecable.com/itadal-music-converter/order.html>

#### 1. Why should I buy the Windows version of TuneCable iTadal Converter?

TuneCable iTadal Converter Windows version is a shareware. The trial version only allows you to convert the first 3 minutes of each audio for sample testing. After purchasing the program, you will be provided with a license with your user ID and key code to unlock this limitation.

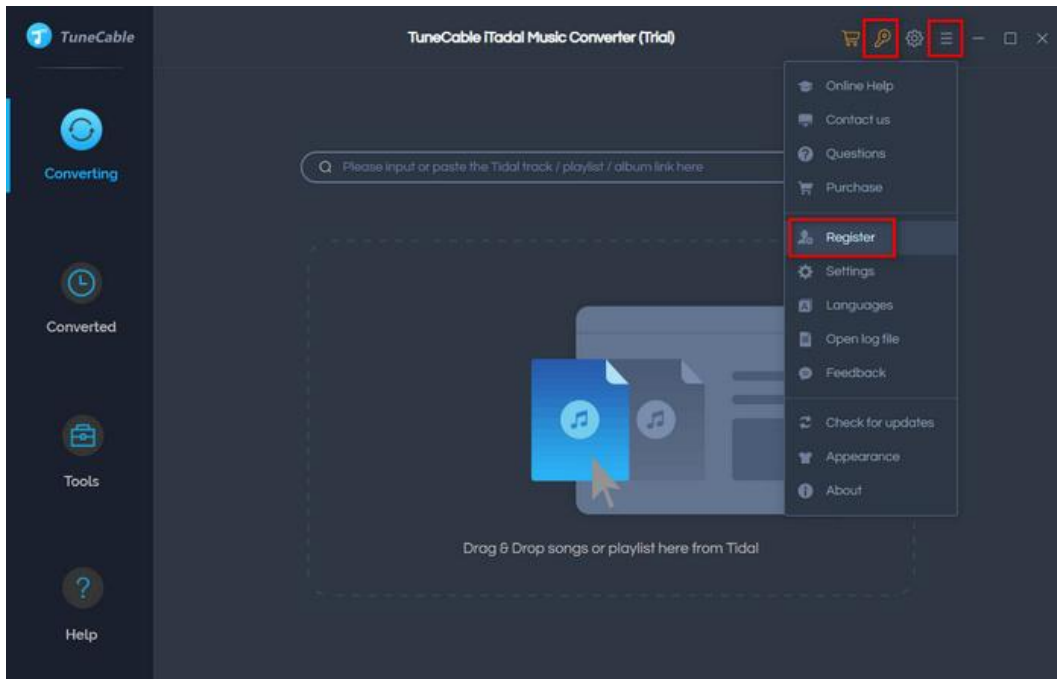

#### 2. What benefits do I have after registration?

- You can convert Tidal songs without time limitations.
- You can enjoy lifetime FREE upgrades of the latest versions of TuneCable.
- You can enjoy FREE technical support.

## Register TuneCable iTadal Converter for Win

**Step 1.** Run TuneCable iTadal Converter for Windows. You can directly click the  "Registration Key" icon or click the top-right "Menu" button and choose "Register" in the drop-down list, and you will get the registration window.

**Step 2.** Copy and paste the registration Email and Code into the registration popup dialog.

**Note:** The registration info is case-sensitive. And, please do not add a blank at the beginning or the end of the word. Make sure both the Email address and key code are the same as what we provided in the confirmation email after purchasing the program. If not, an error message will pop up as below:

Registration

Please enter your new license, [or buy a new one.](#)

E-Mail:

Code:

The registration information must be entered exactly as they appear in your confirmation email. Using the copy and paste method to enter the license is recommended.

Confirm Cancel

## Installation & Interface

### Import Tidal Music

**Step 1.** Please **drag and drop** the track from Tidal to the specific detect area in TuneCable directly. Or you can copy the link (right-click the song, and then choose "Share" >> "Copy Track Link" or right-click the title of an album/playlist, then choose "Copy link address"), then go back to TuneCable and paste the link into the input box.

**Step 2.** After the tracks being added, you can deselect the songs that you don't need before clicking "OK".

## Customize Output Settings

Click on the  icon from the menu bar, and then there will be a pop-up window that allows you to set the output parameters. TuneCable provides 6 downloading formats, you can convert songs to MP3, AAC, WAV, FLAC, AIFF, and ALAC formats. Other settings parameters like conversion mode, output quality, saving path, naming format are ready for you to customize. Then simply apply the settings by closing up the window.

### Convert Settings:

Output Format: MP3, AAC, FLAC, WAV, AIFF, ALAC

Conversion Mode: Intelligent Mode, Tidal Record, YouTube Download

Output Quality: 128kbps, 192kbps, 256kbps, 320kbps

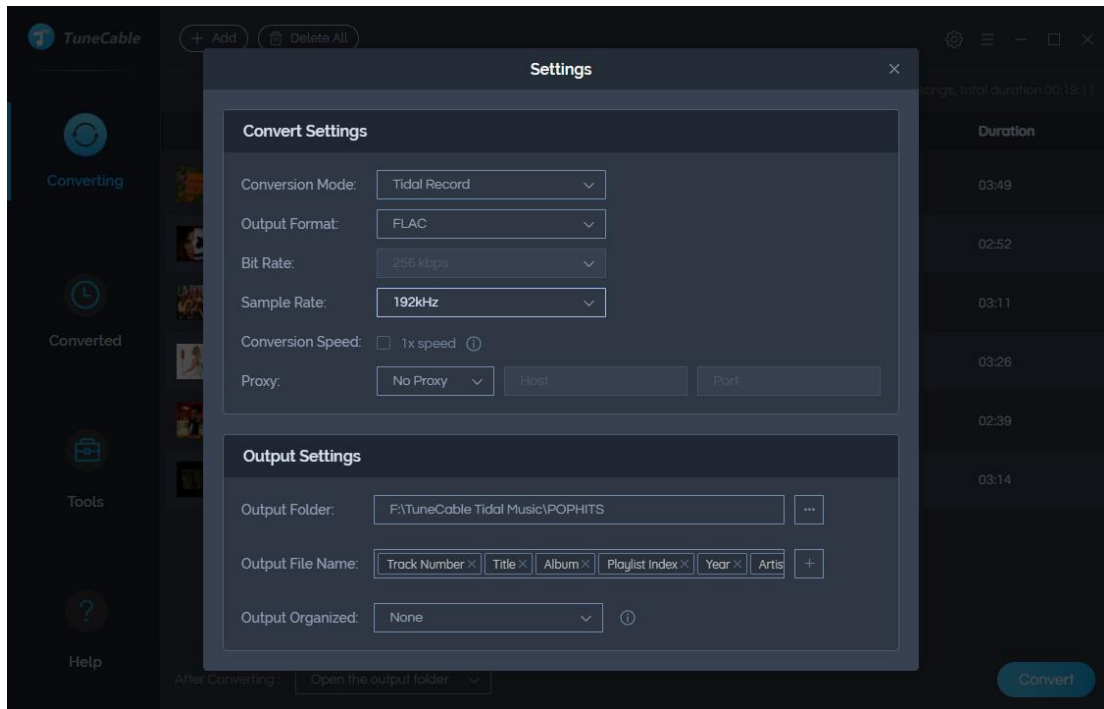

Sample Rate: 44.1 kHz, 48 kHz, 96 kHz, 192 kHz

### Output Settings:

Output Folder: You can choose to change it or not

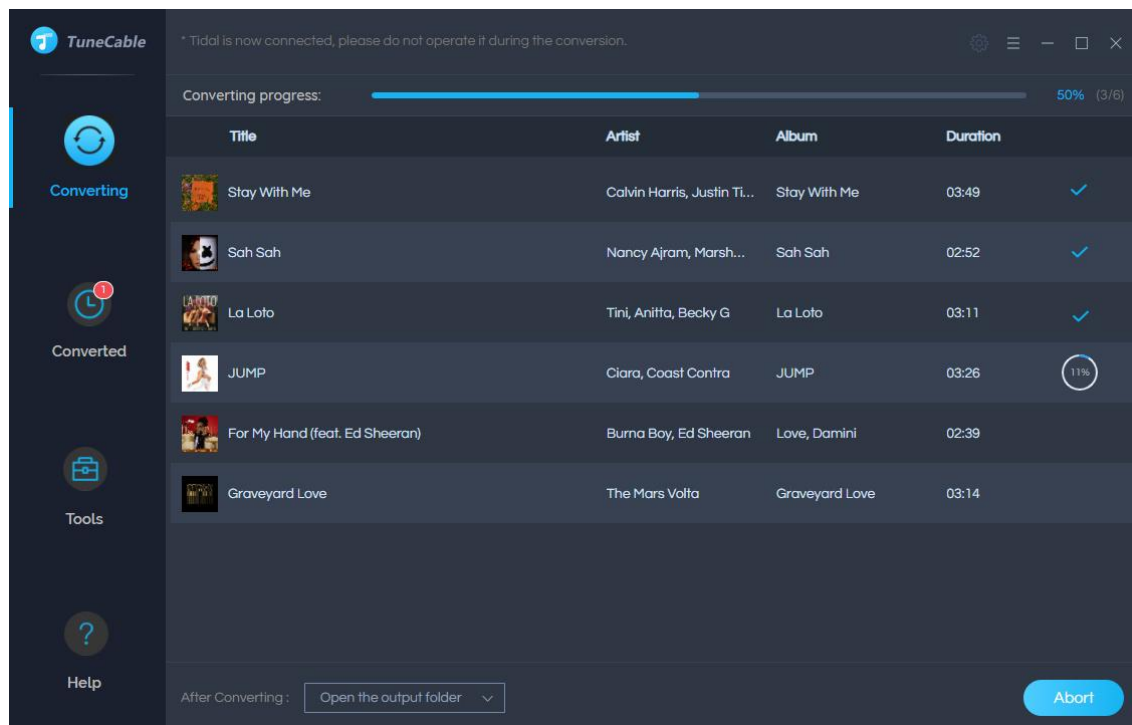

Output Name: {Track Number}, {Title}, {Artist}, {Album}, {Year}, {Playlist Index}

Output Organized: None, Artist, Album, Artist/Album, Album/Artist

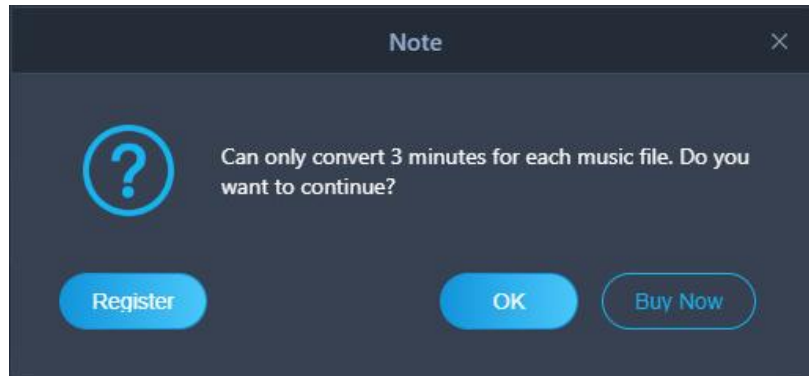

## Convert Tidal Music

When finish the settings, click the "Convert" button to start conversion.

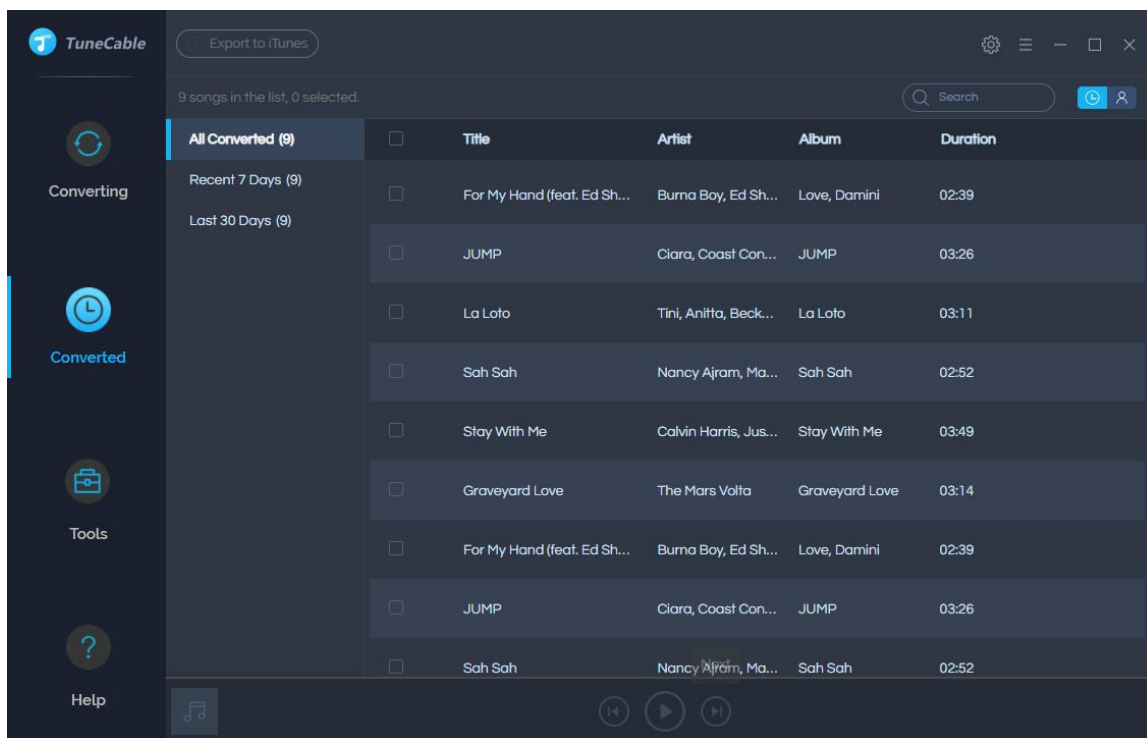

If you haven't purchased the program and are using this product for the first time, you will see the prompt message as follows when you click the "Convert" button:

## View Conversion History

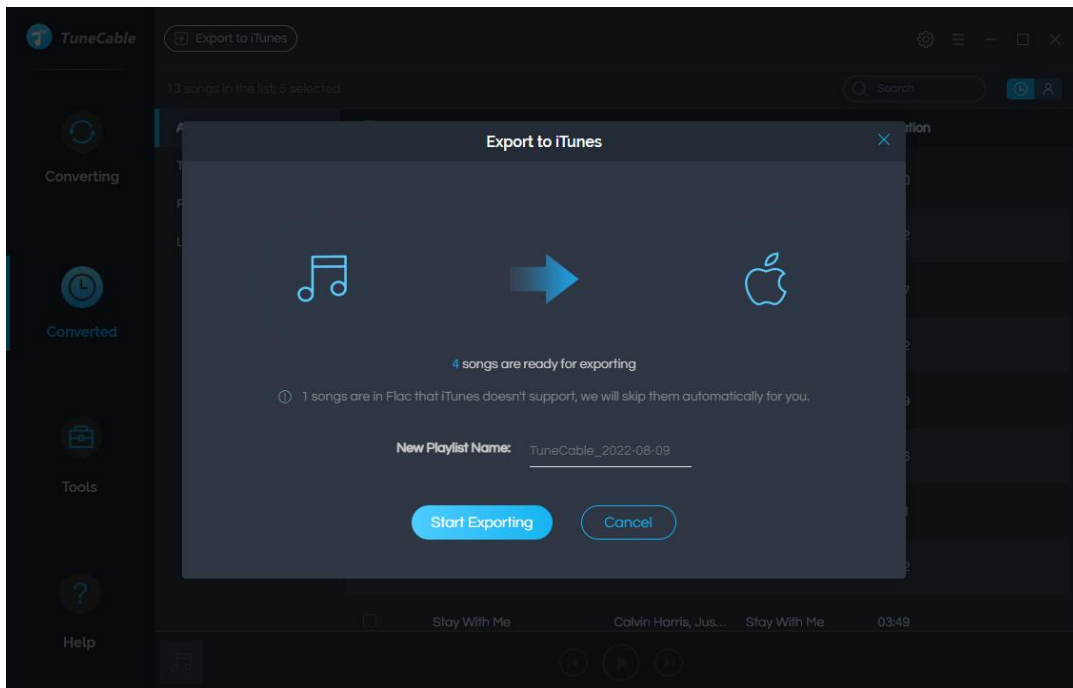

After conversion, click "Converted" to find your converted Tidal Music tracks.

**Note:** If you need to share or transfer the converted Tidal music, you could click the buttons on the top of the Converted interface. TuneCable provides an option for you, which is "Export to iTunes". TuneCable also offers a music playback function.

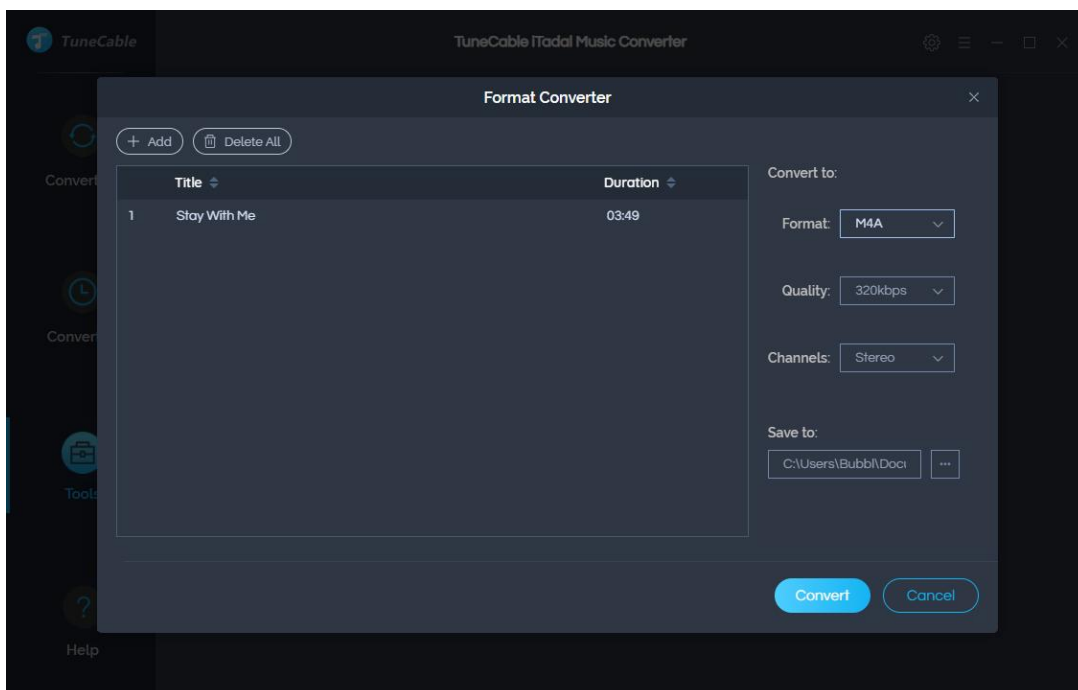

## Export to iTunes

TuneCable supports exporting the downloaded Tidal songs to iTunes Library directly.

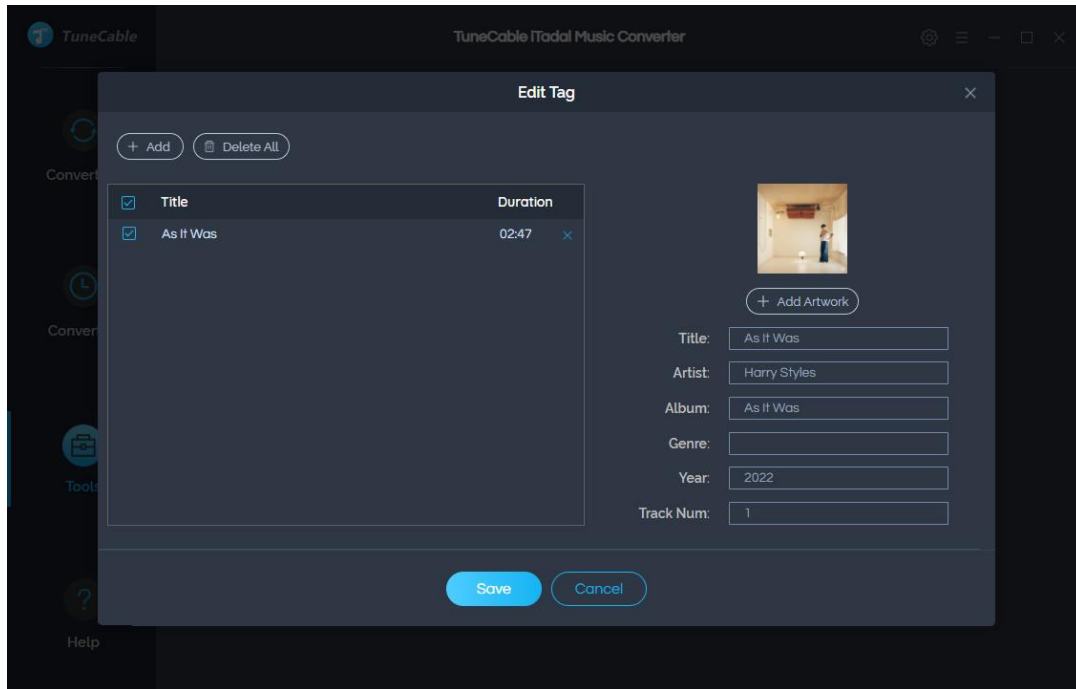

## Format Converter

This function allows you to convert music files to 6 different formats with converted music or your local audio files. They are MP3, M4A, FLAC, WAV, AIFF, and OGG.

## Edit Tag

This function allows you to edit the ID3 tags of a song. You can change the information of "Title", "Artist", "Album", "Genre", "Year" and "Track Num". If you want to edit the artwork of the audio file, that's also supported.
