## Introduction

Thanks for using TuneCable iMusic Converter!

[TuneCable iMusic Converter](#) is a powerful application that can convert Apple Music/iTunes M4P Music/Audiobook. With the high-end recording audio tech, it enables you to effortlessly record and convert Apple Music songs, iTunes M4P music and iTunes/ Audible Audiobooks to MP3, WAV, FLAC, AAC, AIFF, and ALAC format. And for the sake of saving your effort and time, TuneCable supports editing and preserving ID3 tags including title, artist, album, year, track number, and so forth. What's more, TuneCable also surprises people with several great features like converting common audio and burning music to CD. With such a powerful audio converter, you can keep Apple Music tracks or iTunes music playable even if the subscription ends, and transfer them to other portable devices like mobile phone, MP3 player, iPod, Walkman, PS4, etc. for permanent offline listening.

## Key Features

- Download Apple Music songs, albums, playlists, and podcasts to local Windows PC or Mac computer.
- Convert AA/AAX Audible audiobooks & iTunes M4P music.
- Save iTunes/Apple Music in MP3, AAC, WAV, FLAC, AIFF, and ALAC formats.
- Retain 100% lossless quality & full ID3 tags & track lyrics after conversion.
- Proceed with target songs at 10x fast speed in batch.
- Unlock the perpetual offline playback of Apple Music on devices.
- Tools: Format Converter, Burn CD(only available in Windows version), Tag Editor, AA/AAX Converter, Audio Editor, AI Audio Splitter.

## System Requirements

- Operating System: Windows 7, 8, 10, 11 (32-bit & 64-bit) / Mac OS X 10.15 and above.
- Processor: 1G Hz Intel processor or above CPU (Windows) / 1G Hz processor or above (Mac)
- RAM: 512M or higher RAM (Windows) / 256MB or higher RAM (Mac)
- Monitor: 1024\*768 resolution display or higher Monitor.
- The latest Apple Music/iTunes app is recommended.

## Purchase & Registration

## Download Songs from Apple Music or iTunes App / Web Player

Before downloading and converting iTunes/Apple Music songs, make sure to download TuneCable iMusic Converter onto your Windows or Mac computer. The installation progress can be easily done with a few clicks.

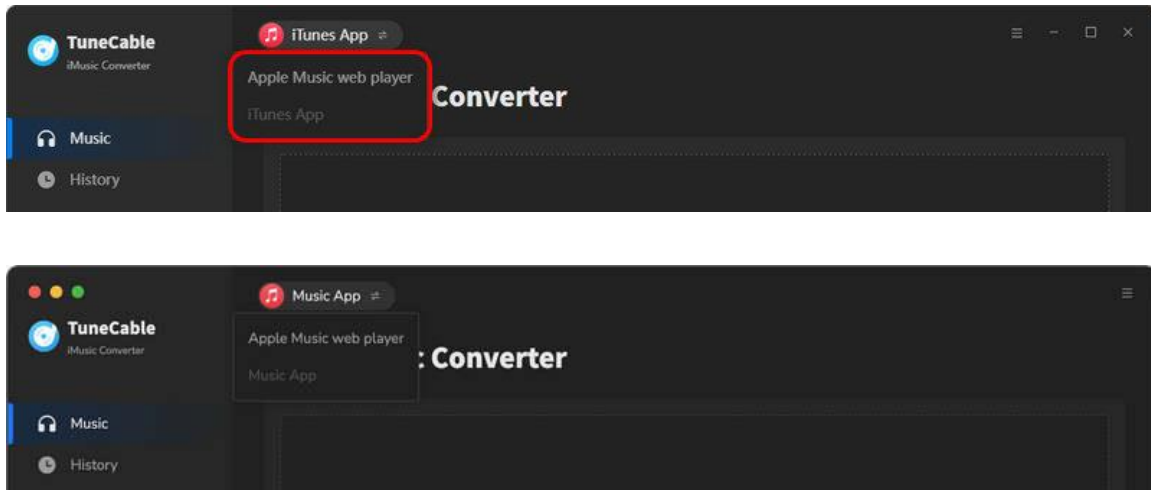

### Step 1. Run TuneCable and Sign In Apple ID

Open TuneCable iMusic Converter. The built-in Apple Music web player will be embedded within the converter by default. If you would like it to pop up as an independent window, just click **"Pop out Player"**. Also, you can choose **"Keep in Converter"** to move it back. Then, you should sign in to your Apple ID.

## Note:

If you would like to download music from the iTunes app (Windows version) or Apple Music app (Mac version), please go to the top navigation bar and choose **"iTunes App"** or **"Music App"**.

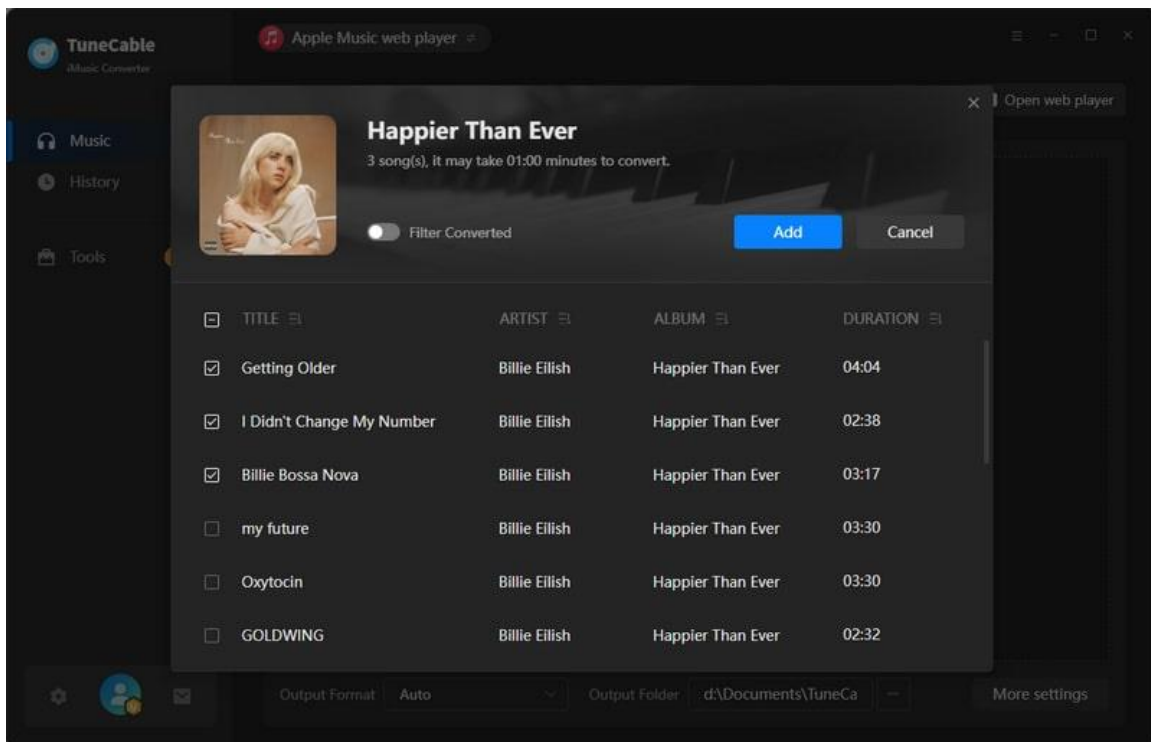

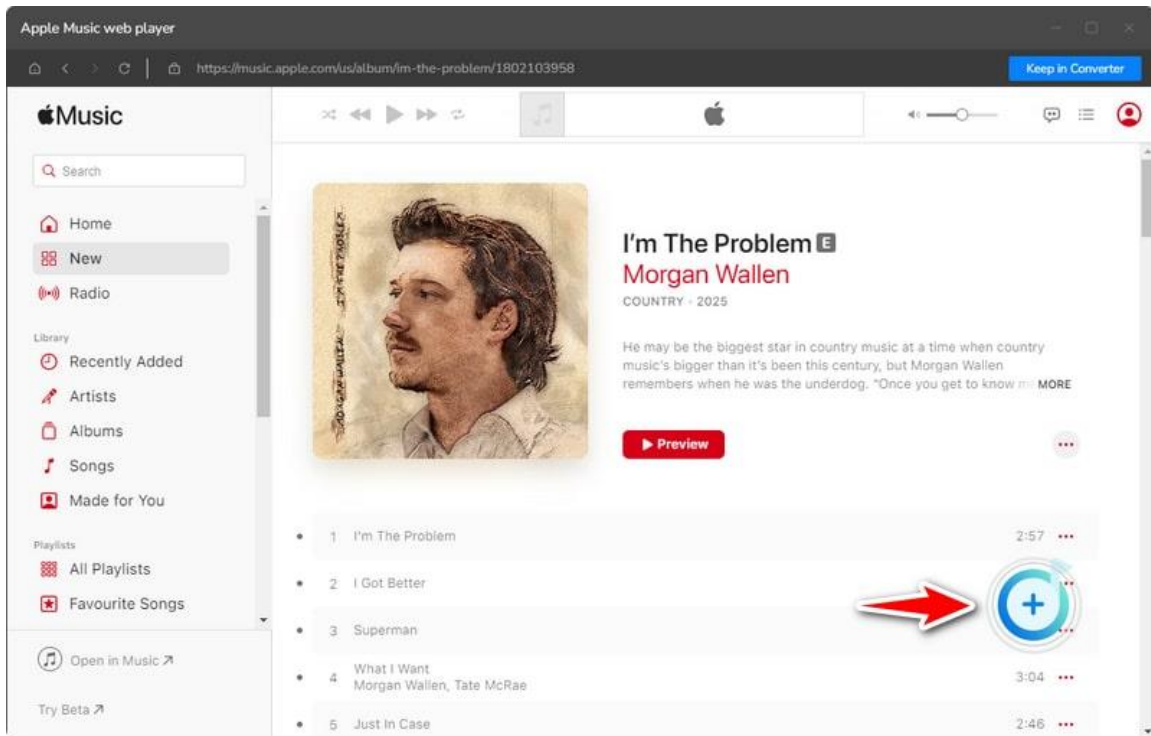

## Step 2. Add Apple Music Songs to Convert

- **Adding Apple Music Songs from Apple Music Web Player to Convert:**

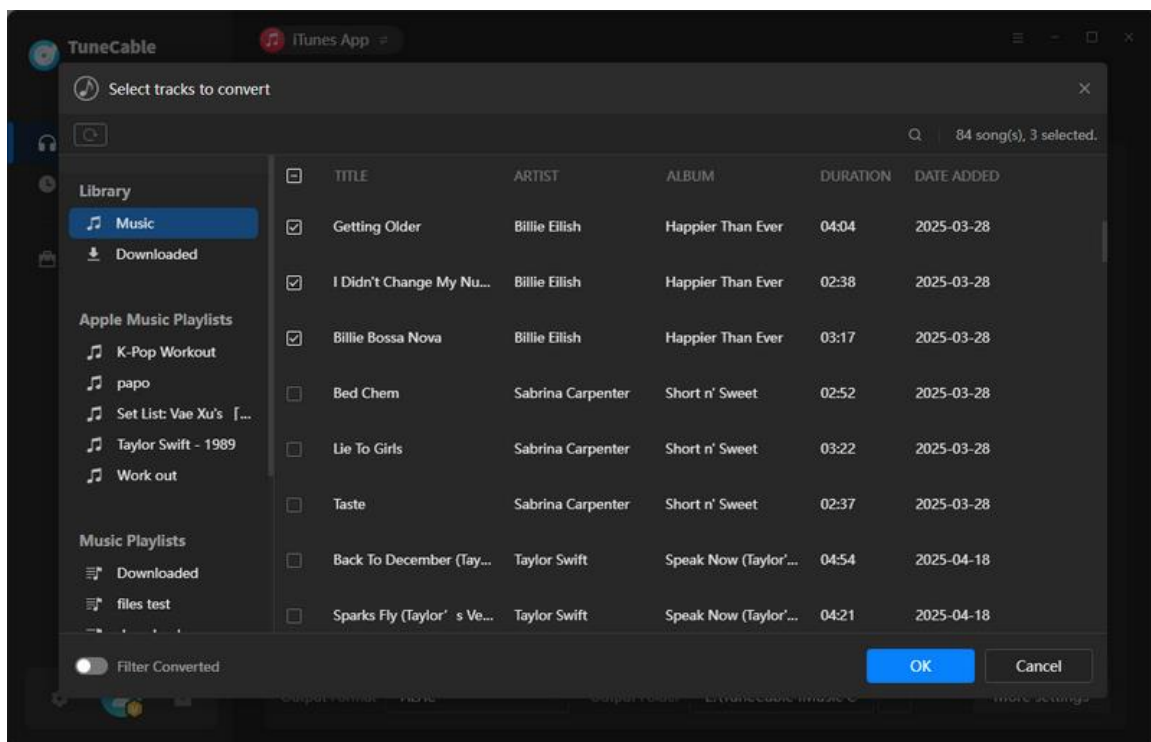

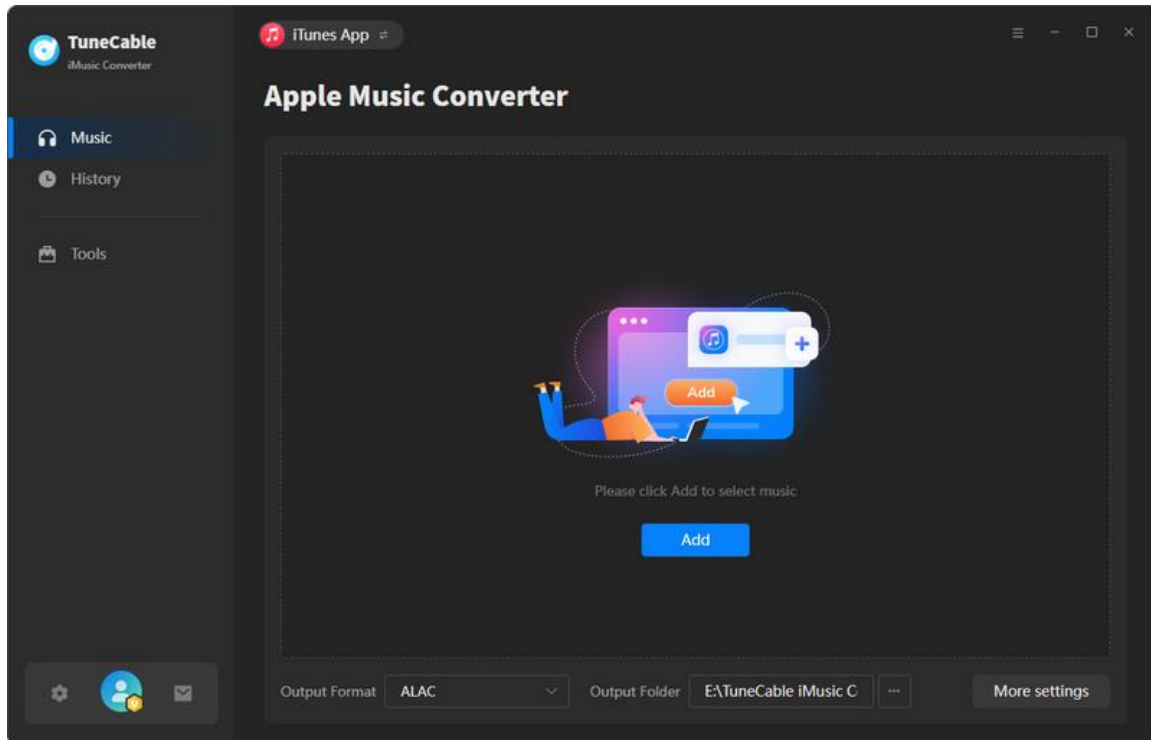

On the Apple Music web player, browse the track, album, or playlist you want to download. Open it and click the **"Click to add"** button in the lower right corner.

The system will automatically pop up the song analysis window, then select the specific songs you want to download, and click **"Add"** to add them to the download list.

- **Adding Apple Music Songs from Apple Music / iTunes App to Convert:**

Tap on the **"Add"** button in the middle panel to load the songs or playlists. Then, choose the needed songs and click **"OK"** to add them to the download list.

### Step 3. Adjust Output Settings for Apple Music

Before selecting Apple songs to download, go to the lower left corner to tap on the "**Settings**" icon. There you can adjust output settings as you like.

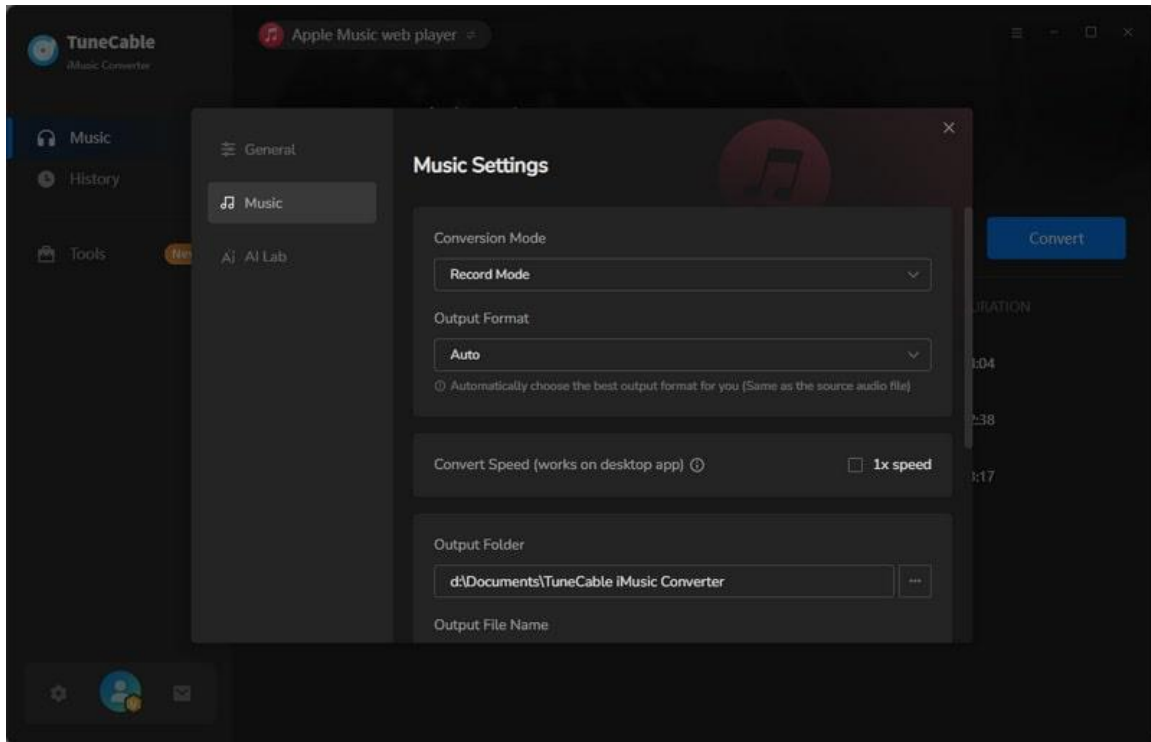

- **Conversion Mode:** Intelligent Mode, Record Mode, YouTube Mode
- **Output Format:** Auto, MP3, AAC, WAV, FLAC, AIFF, ALAC
- **Bit Rate:** 128kbps, 192kbps, 256kbps, 320kbps (available for MP3, AAC)
- **Bit Depth:** 16 bit, 24 bit (available for WAV, AIFF, ALAC, FLAC)
- **Sample Rate:** 44.1kHz, 48kHz, 96kHz, 192kHz
- **Output Folder:** According to your preference
- **Output File Name:** Track Number, Title, Artist, Album, Playlist Index, Year
- **Output Organized:** None, Playlist, Artist, Album, Artist/Album, Album/Artist, Playlist/Artist, Playlist/Album

#### Note:

1. If you would like the output Apple Music songs to have the same audio format and quality as the source, simply select "**Auto**" as the output format and "**Record Mode**" as the conversion mode.

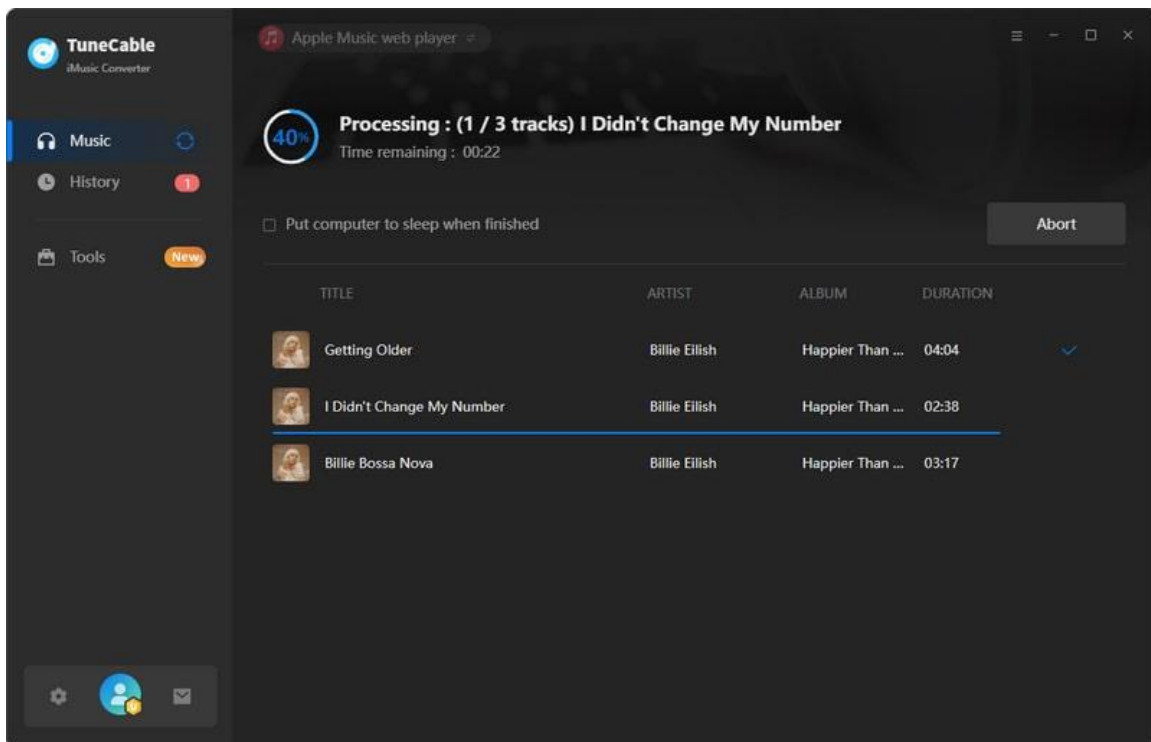

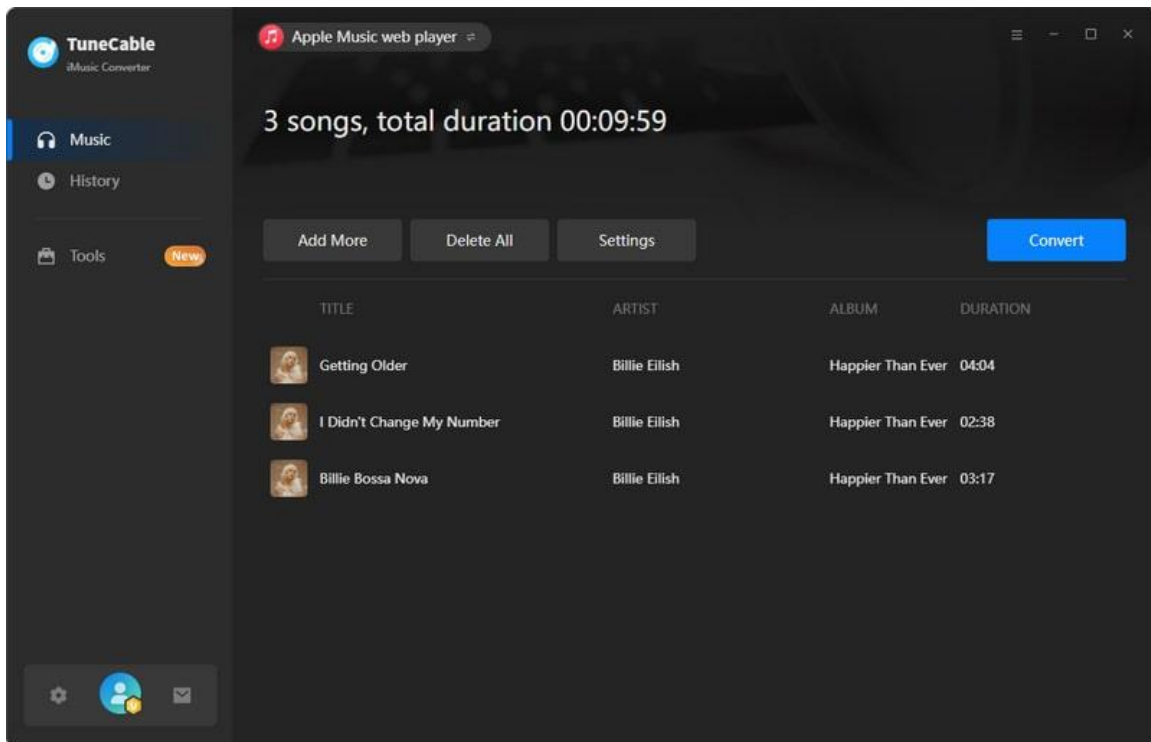

2. To download music from Apple Music app or web player, use **Record Mode**. If your network connection is unstable, switch to **YouTube Mode** to download the same song from YouTube. **Intelligent Mode** means TuneCable automatically switches between downloading music from Apple Music app / web player or YouTube based on your network condition.

3. To maintain playlist sequence in downloads, navigate to TuneCable's lower left **"Settings"**. Under **"Output File Name"**, retain **"Playlist Index"** and **"Title"**. In **"Output Organized"**, select **"Playlist"**.

#### Step 4. Begin to Convert Apple Music Songs

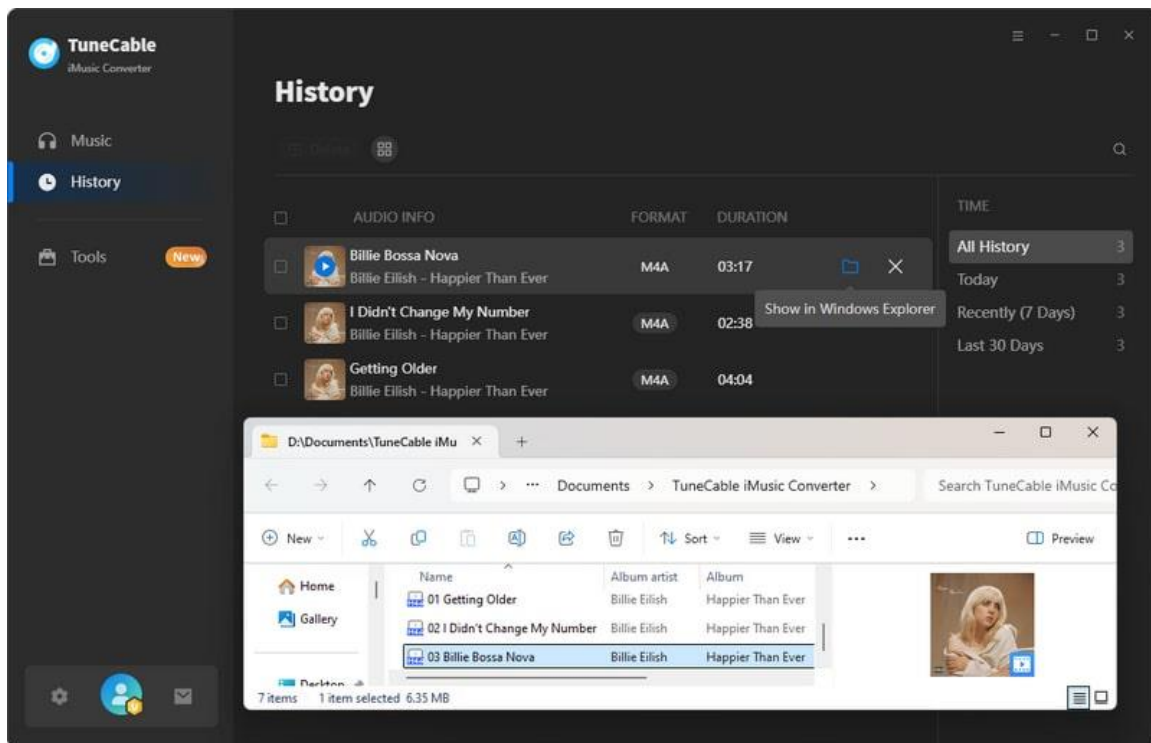

When you are going to download more songs, you can click on the **"Add More"** button and you can simply repeat the previous adding action. After all the songs are added, hit the **"Convert"** button to trigger the conversion at once.

## Step 5. Check Converted Apple Music Songs

The conversion won't take too long as TuneCable can proceed with the songs at up to 10x fast speed. After it is done, you can check your download history from "**History**". Click on the file icon, you are navigated to the output folder.

(Note: When using the Mac version, the Music app mode only supports converting music at 1x speed.)

## Tools on TuneCable iMusic Converter

TuneCable iMusic Converter is a comprehensive program more than an Apple Music or iTunes songs downloader or converter. TuneCable offers tools like Format Converter, Burn CD, Tag Editor, AA/AAX Converter, Audio Editor, and AI Audio Splitter to give you convenient use. To learn detailed instructions, you can check the [Tools guide page](#).
